

# RECOMMENDATION SET 1

---

- **0. Dental Science**

- Trinity College Dublin
- **625** points
- **5 Years**
- **Overview:** Dental Science is the study of the oral cavity and the diseases associated with oral tissues. This five-year programme is designed to ensure that graduates can safely and effectively deliver the full range of primary dental care, including prevention, diagnosis and treatment of oral and dental diseases.

- **1. Medicine**

- University College Cork
- **730** points
- **5 Years**
- **Overview:** The Medicine curriculum at UCC is rooted in the basic Medical Sciences of Anatomy, Physiology, and Biochemistry, but also places emphasis on clinical instruction. A distinctive feature is small-group, patient-centred teaching, in which students learn the skills of listening and communicating, history-taking and clinical examination.

- **2. Veterinary Medicine**

- University College Dublin
- **589** points
- **5 Years**
- **Overview:** This course will educate you to the best international standards in veterinary medicine and is accredited nationally by the Veterinary Council of Ireland (VCI), by the European Association of Establishments for Veterinary Education (EAEVE) and is one of only 6 veterinary schools in Europe currently accredited by the American Veterinary Medical Association (AVMA). The veterinary profession is concerned with the promotion of the health and welfare of animals of special importance to society. This involves the care of healthy and sick animals, the prevention, recognition, control and treatment of their diseases and of diseases transmitted from animals to man, and the welfare and productivity of livestock.

- **3. Occupational Therapy**

- University College Cork
- **566** points
- **4 Years**
- **Overview:** Students on this broad and varied Occupational Therapy course study psychology, anatomy and physiology, as well as occupational therapy theories, assessment and treatment approaches and evidence-based practice.

- **4. Children's and General Nursing (Integrated)**

- University College Cork
- **522** points
- **4 Years**
- **Overview:** The Children's and General Nursing course will provide you with opportunities to develop knowledge and skills relevant to children's and general nursing practice, including independent and critical thinking and problem-solving. It will enable you to ensure that the nursing care you deliver is up-to-date and based on the best current evidence.

- **5. Midwifery**

- University College Dublin
- **509** points
- **4 Years**
- **Overview:** The focus and philosophy of midwifery in UCD is the promotion of women-centred care. The initial focus of this course is on the foundational knowledge and skills required for midwifery practice. Each year, these will be developed and strengthened through theory and practice. In your final year, you'll also focus on professional issues.

- **6. Veterinary Nursing**

- University College Dublin
- **487** points
- **4 Years**
- **Overview:** The degree provides the graduate with not only a sound academic foundation but also the practical skills and competencies with which to build a solid career as a professional veterinary nurse. Students receive a high-quality education through lectures, tutorials and practical classes, as well as off-site work experience. The curriculum reflects the demands on the Irish veterinary nurse in practice by incorporating teaching on small animal (including exotics), farm animal and equine nursing.

- **7. Paramedicine**

- University College Cork
- **476** points
- **4 Years**
- **Overview:** Our BSc Paramedicine degree, offered by the College of Medicine and Health, will prepare you for work as a Paramedic practitioner in the pre-hospital environment. The course will provide you with a variety of modules in numerous settings including modules in theory and clinical practice. In addition, you will participate in ambulance-supervised placements and multiple clinical settings such as emergency departments, coronary care units etc.

- **8. General Nursing**

- University College Cork
- **452** points
- **4 Years**
- **Overview:** Our BSc General Nursing programme will provide you with excellent opportunities to develop knowledge and skills relevant to professional General Nursing practice, including independent and critical thinking, and problem-solving. It will enable you to deliver nursing care that is up-to-date and based on the best current evidence.

- **9. Mental Health Nursing**

- University College Cork

- **400 points**
- **4 Years**
- **Overview:** Our Mental Health Nursing course will provide you with excellent opportunities to develop knowledge and skills relevant to professional Psychiatric Nursing practice, including independent and critical thinking, and problem solving. It will enable you to deliver nursing care that is up-to-date and based on the best current evidence.
- **10. Biomedical, Health and Life Sciences**
  - University College Dublin
  - **589 points**
  - **4 Years**
  - **Overview:** This course will appeal to those with a keen interest in science and in how research and technology can impact on human health. It is training scientists at the interface of science and medicine. You will learn how scientifically driven investigations can advance our knowledge of disease prevention, detection and treatment and translating these into clinical utility. The course will immerse you in modern medical and biological sciences and focus on the application of scientific developments. BHLS offers students a unique opportunity to complete a research project with a Principal Investigator in a biomedical research area that interests them and an opportunity to be involved in peer-reviewed publications.
- **11. Biomedical Science**
  - University College Cork
  - **555 points**
  - **4 Years**
  - **Overview:** Biomedical Science is a continually changing dynamic profession and involves the study of diverse areas of medical science including biochemistry, microbiology, cellular pathology, haematology, and transfusion science. It provides training in cutting-edge technologies to facilitate the investigation of disease and medical research.
- **12. Biological and Biomedical Sciences**
  - Trinity College Dublin
  - **554 points**
  - **4 Years**
  - **Overview:** Biology is the study of living things; we explore how life first arose: the properties that distinguish living organisms from inert matter; how the vast diversity of life forms was generated; how organisms reproduce themselves; how they interact both with each other and with the environment. Biology is fundamental to understanding the world we live in and plays a huge role in medicine.
- **13. Psychology**
  - Trinity College Dublin
  - **577 points**
  - **4 Years**
  - **Overview:** The School of Psychology aims to offer a knowledge base and a set of skills that not only equip students for the many careers that exist in psychology, but also prepare students intellectually for other careers. Psychology is a branch of science that demands clear, rigorous thinking, numeracy and the ability to define, study and solve problems in complex, changing settings.
- **14. Applied Psychology**
  - University College Cork
  - **533 points**
  - **3 Years**
  - **Overview:** As a student on the BA Applied Psychology, you get a chance to engage with a wide breadth of topics. The degree follows a rich, varied and challenging curriculum, from history to neuroscience, culture to biology, from children to the elderly, from professional skills to statistical and laboratory skills.
- **15. Social Sciences (Two Subject Combination)**
  - University College Dublin
  - **490 points**
  - **3 Years**
  - **Overview:** Social Sciences students explore society and how people behave as individuals and in groups. With the four-year Social Sciences degree, you choose DN700 at CAO and then select your preferred option below. Your subject choices are guaranteed. The Two Subjects Choice (TSC) options are: Archaeology; Economics; Geography; Information & Communication Studies, Philosophy; Politics and Sociology. There are options to change subject choices at the end of first year if you wish. You will gain a deep understanding of each subject you choose to study and develop real-world skills in research, communication and leadership. You may additionally apply for an internship, or study abroad for a year or a semester. You will learn to analyse, criticise and challenge beliefs and assumptions - including your own.
- **16. Social Studies (Social Work)**
  - Trinity College Dublin
  - **456 points**
  - **4 Years**
  - **Overview:** Social work is a profession concerned with supporting and helping people in a variety of situations and settings. People who use social work services include young and adult offenders, children, families, older people, people with mental and physical illness and disability, homeless people, unemployed people, ethnic groups, Travellers and people with drug and alcohol problems. Ultimately, social work aims to support people to live more successfully, within their communities by helping them to find solutions to their problems.
- **17. Early Years and Childhood Studies**
  - University College Cork
  - **368 points**
  - **4 Years**
  - **Overview:** This four-year degree will expose you to interdisciplinary perspectives from the Schools of Applied Psychology, Applied Social Studies and Education. The curriculum emphasises academic theory, research skills, and professional and reflective practice. It includes a broad range of perspectives on childhood, the child in society, child development, early years care and education, and child health.
- **18. Social Science - Youth & Community Work**
  - University College Cork
  - **317 points**
  - **3 Years**
  - **Overview:** This degree combines an academic social science programme with a professionally accredited qualification in youth work. This professional

qualification is recognised by employers in the Republic of Ireland, Northern Ireland, and throughout the UK. This programme offers a range of foundational subjects including Sociology, Social Policy, and Research Methods.

- **19. Chemistry**

- University College Dublin
- **544 points**
- **4 Years**
- **Overview:** The UCD Science (DN200) course offers 27 degree subjects categorised into streams. Students can study subjects from more than one stream in first year. It is also possible for students to change their stream in first year. At the end of first year, students choose a minimum of two subjects to study in second year (for example Statistics and Mathematics or Genetics and Microbiology). Students will major in one of these subjects in third and fourth year.

## RECOMMENDATION SET 2

---

- **0. Dental Science**

- Trinity College Dublin
- **625 points**
- **5 Years**
- **Overview:** Dental Science is the study of the oral cavity and the diseases associated with oral tissues. This five-year programme is designed to ensure that graduates can safely and effectively deliver the full range of primary dental care, including prevention, diagnosis and treatment of oral and dental diseases.

- **1. Economics and Finance**

- University College Dublin
- **625 points**
- **3-4 Years**
- **Overview:** If you have a strong interest or ability in economics, maths and statistics, this degree provides everything you need for a future career in the areas of financial economics, banking and finance. Recognised as one of the premier degrees in its field in Ireland and internationally, it equips students with outstanding expertise in quantitative methods, analytical skills and a rigorous preparation in economics and finance. The skills that the course develops are valuable on their own in many careers and provide the essential background for learning Economics and Finance.

- **2. Management Science and Information Systems Studies**

- Trinity College Dublin
- **625 points**
- **4 Years**
- **Overview:** Students learn how to use techniques from disciplines such as business, mathematics, computer science, statistics and management science to solve real world problems. There is also a firm emphasis on interpersonal skills such as verbal communication, interviewing, teamwork and report writing.

- **3. Actuarial & Financial Studies**

- University College Dublin
- **613 points**
- **4 Years**
- **Overview:** Studying UCD Actuarial & Financial Studies (BAFS) degree requires a multidisciplinary education in fields such as mathematics, economics, finance, statistics, risk management and professionalism. It takes a combination of strong analytical skills, business knowledge and understanding of human behaviour to design and manage programmes that control risk and guarantee sufficient funds for the insurance and pension sectors. Actuaries have traditionally worked mostly in the insurance and pensions industries but are increasingly moving into wider fields, where they can employ their range of skills. The course also opens up options to work in finance, investment and trading.

- **4. Engineering with Management**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Engineering with Management is concerned with the analysis, design, improvement, installation, and management of integrated systems of people, finance, materials and equipment. Our graduates have the technical skills common to all excellent engineers, with this knowledge augmented by an understanding of the commercial and industrial environment and the ability to generate innovative solutions to the problems of the world.

- **5. Law/Business Studies**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** LawThe law degree will appeal to you if you are interested in society and how it works, how we regulate the relationships between people. Given the wide range of legal modules, the degree attracts students with a broad range of interests. Business StudiesThis four year programme offers the opportunity to focus upon the many areas of overlapping interest between the two disciplines, for example, the structure of companies and other forms of business organisation, competition law and regulation of markets, consumer law, labour law, finance and financial markets, taxation, the protection of intellectual property and international perspectives on law and business.

- **6. Law/History**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Law The law degree will appeal to you if you are interested in society and how it works, how we regulate the relationships between people. Given the wide range of legal modules, the degree attracts students with a broad range of interests. Those interested in politics are attracted to subjects such as constitutional law. History The History programme introduces students to the diversity of historical studies, which include modules covering medieval and modern periods, including Irish, European, and American history, as well as some modules exploring the skills and methods which historians use, and the kinds of debates in which historians engage.

- **7. Mathematics/Modern Language**

- Trinity College Dublin

- **613 points**
- **4 Years**
- **Overview:** Mathematics Mathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques. You can choose between German, Irish, Italian, Russian and Spanish. Apart from French and Irish all languages can be studied from both advanced and beginners level.

• **8. Mathematics/Music**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Mathematics Mathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques. Music Studying music will allow you to engage with a range of traditions to acquire a profound understanding of how music works in theory and in creative practice. If you are interested in understanding music's place in society, developing music technology skills, writing music, or improving your skills as an informed performer, this course could be for you.

• **9. Mathematics/Philosophy**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Mathematics Mathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques. Philosophy This course offers the opportunity to engage in depth with questions of metaphysics (about the fundamental nature of reality), epistemology (the theory of knowledge), ethics (theories of right and wrong), political philosophy (the nature of the just state), philosophy of religion (reasoning about God), philosophy of mind (questions about thought, language and reason) and various other areas.

• **10. Global Business**

- Trinity College Dublin
- **602 points**
- **4 years**
- **Overview:** The Global Business degree is a unique programme, designed for students who wish to focus on business from the very beginning of their degree. The degree is both innovative and practical with a strong focus on experiential learning. Trinity Business School places an emphasis on blended learning, where academic excellence meets industry experience with a keen focus on how business operates within the global economy.

• **11. Pharmacy**

- University College Cork
- **602 points**
- **5 Years**
- **Overview:** A pharmacist is a healthcare team member specifically concerned with drugs and medicines. Pharmacy at UCC provides the confidence, skills, and knowledge to make a difference in the pharmaceutical arena.

• **12. Biomedical, Health and Life Sciences**

- University College Dublin
- **589 points**
- **4 Years**
- **Overview:** This course will appeal to those with a keen interest in science and in how research and technology can impact on human health. It is training scientists at the interface of science and medicine. You will learn how scientifically driven investigations can advance our knowledge of disease prevention, detection and treatment and translating these into clinical utility. The course will immerse you in modern medical and biological sciences and focus on the application of scientific developments. BHLS offers students a unique opportunity to complete a research project with a Principal Investigator in a biomedical research area that interests them and an opportunity to be involved in peer-reviewed publications.

• **13. Law and French**

- Trinity College Dublin
- **589 points**
- **4 Years**
- **Overview:** The Law and French degree programme offers a unique opportunity to study core and specialised legal modules but also the language, culture and political systems of France. Students must undertake an Erasmus year in France, exposing them to the law of that legal system.

• **14. Philosophy, Political Science, Economics and Sociology**

- Trinity College Dublin
- **581 points**
- **4 Years**
- **Overview:** Philosophy, Political Science, Economics and Sociology (PPES), offers a coherent and integrated introduction to the study of social sciences and philosophy. It brings together some of the most important approaches to understanding society and, in doing so, develops skills for a range of future careers and activities.

• **15. Economics/Geography**

- Trinity College Dublin
- **578 points**
- **4 Years**
- **Overview:** Economics Any society has to address the problem of how and what to produce for its material survival, and how the goods and services that are produced should be distributed among its population. Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Geography Geography is the study of Earth's landscapes, peoples, places and environments. Fundamentally it is about the world in which we live. Geography offers a 21st century education by uniquely bridging the social sciences (human geography) with the natural sciences (physical geography). Geography also covers increasingly important environmental issues where humans affect physical environments and vice versa.

• **16. Economics/History**

- Trinity College Dublin
- **578** points
- **4 Years**
- **Overview:** EconomicsAny society has to address the problem of how and what to produce for its material survival, and how the goods and services that are produced should be distributed among its population. Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. HistoryThe four-year programme allows students to lay firm foundations in the first two years, with wide-ranging modules on medieval and modern history, Irish, European, American, environmental and global history, as well as on historical methods and approaches. The final two years of the programme allow students the chance to study several specialist modules in-depth and to undertake independent research on a subject of their own choice.

- **17. Economics/Mathematics**

- Trinity College Dublin
- **578** points
- **4 Years**
- **Overview:** Economics Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Economists' main motivation is to find mechanisms that encourage efficiency in the production and use of material goods and resources, while at the same time producing a pattern of income distribution that society finds acceptable. MathematicsMathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques.

- **18. Economics/Modern Language**

- Trinity College Dublin
- **578** points
- **4 Years**
- **Overview:** Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Economists' main motivation is to find mechanisms that encourage efficiency in the production and use of material goods and resources, while at the same time producing a pattern of income distribution that society finds acceptable. Students combine this subject with their choice of German or Spanish.

- **19. Economics/Philosophy**

- Trinity College Dublin
- **578** points
- **4 Years**
- **Overview:** Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Economists' main motivation is to find mechanisms that encourage efficiency in the production and use of material goods and resources, while at the same time producing a pattern of income distribution that society finds acceptable. PhilosophyThis course offers the opportunity to engage in depth with questions of metaphysics (about the fundamental nature of reality), epistemology (the theory of knowledge), ethics (theories of right and wrong), political philosophy (the nature of the just state), philosophy of religion (reasoning about God), philosophy of mind (questions about thought, language and reason) and various other areas. We teach courses which have both systematic and historical emphases and in the higher years students can choose options and get to write a thesis on a topic of their own choice.
