

RECOMMENDATION SET 1

- **0. Sociology/Social Policy**

- Trinity College Dublin
- **481** points
- **4 Years**
- **Overview:** Sociology If you want to understand the social changes taking place in the world today, and you are curious about people and society, then Sociology is for you. You will also gain the ability to understand topical issues and to present and communicate information and thoughts coherently. In addition, you will learn invaluable analytical, communication, research and presentation skills – transferable skills which can be applied to a wide range of careers and postgraduate programmes. Social Policy Curious about social and economic policy issues around the world? Searching for a course that demands both academic and vocational qualities? Interested in understanding society, its social problems and have a desire to make a difference? Then Social Policy may be the subject choice for you. It is particularly relevant to students intending to pursue a career in research, social policy analysis and evaluation, management and planning within the social services, both voluntary and statutory, as well as to those with a general interest in society and social policy.

- **1. Sociology**

- University College Dublin
- **420** points
- **3 Years**
- **Overview:** If you are interested in people, you will be interested in sociology. It is relevant for understanding almost every aspect of our lives. We are all part of society, we are connected with each other and we are affected by the people around us. In the same way, we shape the social context for others as well. Sociology provides you with the mindset and the research tools to observe the social world, make connections, understand differences, norms, cultures or inequalities.

- **2. Psychology**

- University College Dublin
- **544** points
- **3 Years**
- **Overview:** If you have a questioning attitude and good reasoning skills, you will really enjoy the world opened up by Psychology. Psychology has links to the natural sciences, the social sciences and the arts, so it is likely to appeal to a wide variety of people. The course has

core modules that will introduce you to major theories and research methods, and you will also have a chance to choose option modules in specialist areas of psychology (e.g. counselling, clinical psychology and forensic psychology).

- **3. Social Sciences (Two Subject Combination)**

- University College Dublin
- **490** points
- **3 Years**
- **Overview:** Social Sciences students explore society and how people behave as individuals and in groups. With the four-year Social Sciences degree, you choose DN700 at CAO and then select your preferred option below. Your subject choices are guaranteed. The Two Subjects Choice (TSC) options are: Archaeology; Economics; Geography; Information & Communication Studies, Philosophy; Politics and Sociology. There are options to change subject choices at the end of first year if you wish. You will gain a deep understanding of each subject you choose to study and develop real-world skills in research, communication and leadership. You may additionally apply for an internship, or study abroad for a year or a semester. You will learn to analyse, criticise and challenge beliefs and assumptions - including your own.

- **4. Sociology (Social Sciences Two Subject Combination)**

- University College Dublin
- **490** points
- **4 Years**
- **Overview:** If you are interested in people, you will be interested in sociology. It is relevant for understanding almost every aspect of our lives. We are all part of society, we are connected with each other and we are affected by the people around us. In the same way, we shape the social context for others as well. Sociology provides you with the mindset and the research tools to observe the social world, make connections, understand differences, norms, cultures or inequalities.

- **5. Commerce**

- University College Dublin
- **554** points
- **3-4 Years**
- **Overview:** The Bachelor of Commerce (BComm) is a globally recognised business degree, designed for ambitious and achievement-orientated students who want to make a significant impact in the business world. Combining strong theoretical understanding with the practical skills needed for graduate employment, students are assured of a challenging and relevant programme for the modern business world. You'll learn to become an independent and critical thinker and a cogent and compelling communicator; with the skills

to work seamlessly in groups; to develop the technical and mathematical skills to analyse and make sense of business data and intelligence.

- **6. Accounting and Finance**

- Dublin City University
- **532** points
- **3 Years**
- **Overview:** A BA in Accounting and Finance gives you a world of opportunities. It is considered Ireland's premier degree for those wishing to pursue careers as accountants and financial services professionals. The course offers great prospects for career progression, and the chance to work in a wide range of different industries. Your Career Starts Here This degree was first of its kind in Ireland, and this continues to be an extremely popular course. Graduates are highly regarded by the accounting and financial services professions, as can be seen in the consistently employment rates for those who take the BA in Accounting and Finance.

- **7. Business Studies**

- Dublin City University
- **510** points
- **3 - 4 Years**
- **Overview:** The Business Studies degree course is designed to give you an introduction to the foundations of business and guide you to a specialisation in economics, management, finance, marketing, HR or business analytics. The four-year course includes an optional 11-month paid work placement that gives you the opportunity to experience working in a real business environment. Alternatively, you can opt to spend a year at one of our partner universities in Europe.

- **8. Business and Law**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** The Business & Law (BBL) degree is a popular choice for many students and is extremely well regarded by employers across the legal and financial communities. The degree is a 'double major' which means it combines law and business in a single degree, providing an ideal skill-set for the commercial world and offering valuable career flexibility. If you choose this degree, you will undertake business and law modules in equal measure for your first three years in both the UCD Sutherland School of Law and the UCD Quinn School of Business. This allows you to gain a deep understanding of both disciplines while offering you the opportunity to choose in final year which area interests you most for your career progression.

- **9. Law (BCL)**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** The UCD Bachelor of Civil Law (BCL) degree enjoys a proud history and an established reputation at home and abroad. The BCL degree allows you to immerse yourself in the study of law, to engage with a range of interesting legal perspectives and to acquire a profound understanding of how law works in theory and in practice.

- **10. Law with Politics**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** Law and politics are inextricably linked by the legislative process. This course allows you to obtain a highly respected law degree, whilst also acquiring a deeper understanding of political theory and the political process. Many UCD law graduates have progressed to political careers. Others have become high-profile political commentators.

- **11. Law with Social Justice**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** The BCL with Social Justice course, the first of its kind in Ireland, combines the study of Law with rigorous analysis of social injustice, its causes and remedies. It will appeal to students who are interested in issues of equality, diversity and disadvantage, and who want to look in-depth at the social context in which law operates. On completion, you'll be uniquely equipped to offer a critical perspective on issues such as the adequacy of our criminal justice system, the legal treatment of women and minority groups, and the underlying causes of social and economic injustice.

- **12. BCL (Law and Society)**

- Dublin City University
- **496** points
- **3 Years**
- **Overview:** The BCL degree focuses on experiential learning and developing practical legal skills while also providing you with opportunities to engage with industry and the wider legal profession. In particular, the Moot Court module gives you the chance to practise your court-room skills and gain a real insight into law in action. DCU has its own Moot Court room which is where you will participate in mock trials and practise skills such as advocacy, presenting evidence or cross examination.

- **13. Athletic Therapy and Training**

- Dublin City University
- **554** points
- **4-5 Years**
- **Overview:** The Athletic Therapy and Training programme will equip you with skills in preventing, assessing, treating and rehabilitating injuries associated with physical activity, including those experienced by elite athletes. Incorporating multiple work placements, this course gives you extensive theoretical knowledge of how the body works and then shows you how to apply that expertise. It is an intensive, highly practical programme that immerses students in musculoskeletal medicine from an early stage. Practical experience at home and abroad: You'll learn how to assess, treat and rehabilitate in theory and, from second year, in real-world settings. You'll complete placements in sports medicine clinics and rehabilitation clinics, as well as undertaking pitchside and team placements. In your final year, you'll do a semester-long immersive placement, which could be in an athletic therapy clinic or a professional sports team. These placements may be completed in Ireland but most students go to the US, Canada, Australia or Britain. This course is accredited by Athletic Rehabilitation Therapy Ireland. When you graduate, you'll be eligible to become a certified Athletics Therapist. As an independent, highly skilled clinician with a wealth of experience, you'll be highly sought after in sports medicine, by musculoskeletal clinics or with a sports team, or you can go on to work as a researcher in musculoskeletal medicine.

- **14. Sport, Health and Exercise Science**

- University College Dublin
- **532** points
- **3 Years**
- **Overview:** This course is suitable for you if you have a strong interest in sport and exercise science and wish to pursue a career in high performance sport, a clinical profession (e.g. physiotherapy, dietetics, medicine) and/or scientific research in sport and health sciences. You will study the scientific principles underlying the promotion and enhancement of sport, physical health and exercise across the lifespan.

- **15. Sport Science and Health**

- Dublin City University
- **518** points
- **4 Years**
- **Overview:** Are you passionate about sport? Can you imagine supporting an elite athlete to the heights of their career or helping to coach a team to be among the best in the world? That's exactly what many of our Sports Science and Health graduates do, while many others make a massive impact in the community, helping people of all ages to enjoy and benefit from sport and exercise. During this course, you'll learn how to enhance health and human

performance, and how to advocate for and champion a healthy, educated and active society. You'll encounter a range of teaching methods, including practical sessions, and develop key skills you can use in any career, including creative and critical thinking.

- **16. Physical Education with Biology**

- Dublin City University
- **521** points
- **4 Years**
- **Overview:** Do you really enjoy getting active while also having a passion for subjects such as biology and science? This course is a brilliant opportunity to blend your interests in a substantive way and go on to make a positive impact on society through education. Once you graduate, you can teach PE and Biology up to Leaving Cert level, and Science for Junior Cert level, or choose from a wide range of other exciting career paths. This course offers a unique blend of academic subjects, taught in a way that emphasises learning through practical experiences. During the course, you'll gain a comprehensive understanding of the content, theory, and skills of different physical activities (such as athletics, games, aquatics, dance, and outdoor activities), biology, science and education. You'll also improve your communication, leadership, and critical thinking skills. Future-proof your life In both third and fourth year, you'll do a comprehensive professional school placement and you can also choose to study overseas through the Erasmus programme.

- **17. Computer Science**

- University College Dublin
- **540** points
- **4 Years**
- **Overview:** The UCD Computer Science degree covers the fundamentals of Computer Science while also exposing students to the contemporary languages and technologies used in the industry. Key topics include programming, foundational mathematics, advanced software engineering, cloud development, theory of computer science, networks and security. The principal programming languages used are C, Java and Python. Specialised topics include computer graphics, game development, robotics, mobile development and others.

- **18. Business Studies/Computer Science**

- Trinity College Dublin
- **554** points
- **4 Years**
- **Overview:** Computer Science is concerned with the study of everything to do with computers and our relationship with them. Computer scientists are critical to the efficient running of modern societies, dealing with health, security, banking and finance, transportation, and now increasingly our interaction through social networks. Computing

professionals deal with theoretical issues, solve complex problems, deal with matters of ethics and with society at large. Theoretical issues in computer science relate to the abstract notions of computation and information.

- **19. Genetics and Cell Biology**

- Dublin City University
- **518** points
- **4 Years**
- **Overview:** By studying on this programme, you can come to understand the genetic basis for life and how this information can be used to investigate, diagnose and treat diseases. You'll also gain practical laboratory skills, as well as skills in communications, critical thinking and problem-solving. Furthermore, you'll gain skills in computational biology, which uses high-tech data analysis and modelling to help harness genetic and biological insights.

RECOMMENDATION SET 2

- **0. Human Health and Disease**

- Trinity College Dublin
- **567** points
- **4 Years**
- **Overview:** The Human Health and Disease degree trains students for work in the field of biomedical research. It brings to life the fascinating connections between structure and function in the human body and explores the health and disease continuum in detail, including teaching on how medical therapies act to treat or even prevent disease. As an example, understanding brain structure and biochemistry allows us to appreciate how neurons communicate and this in turn is helping biomedical researchers and clinicians to identify new and effective ways to treat and prevent diseases such as dementia.

- **1. Business and Law**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** The Business & Law (BBL) degree is a popular choice for many students and is extremely well regarded by employers across the legal and financial communities. The degree is a 'double major' which means it combines law and business in a single degree, providing an ideal skill-set for the commercial world and offering valuable career flexibility. If you choose this degree, you will undertake business and law modules in equal measure for your first three years in both the UCD Sutherland School of Law and the UCD Quinn School of Business. This allows you to gain a deep understanding of both disciplines while offering you

the opportunity to choose in final year which area interests you most for your career progression.

- **2. Law (BCL)**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** The UCD Bachelor of Civil Law (BCL) degree enjoys a proud history and an established reputation at home and abroad. The BCL degree allows you to immerse yourself in the study of law, to engage with a range of interesting legal perspectives and to acquire a profound understanding of how law works in theory and in practice.

- **3. Law with Economics**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** This course allows you to obtain a highly respected degree in law, whilst simultaneously acquiring a broad knowledge of economics. Certain areas of law (e.g. competition regulation and intellectual property) are heavily influenced by economic theory. BCL (Law with Economics) graduates are uniquely equipped to understand these regulatory frameworks in all of their conceptual complexity. On this degree, you'll embark on a field of cross-disciplinary study which is intellectually very demanding, but also tremendously enriching and of immense practical importance.

- **4. Law with French Law**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** Law with French Law is one of two French Law Courses offered by Sutherland School of Law, the other being the dual degree - the BCL/Maîtrise (more information on the following page). All students interested in the French Law Courses enter the BCL (Law with French Law) in first year. Both degrees offer the exciting opportunity for immersion in two of the world's major legal systems. Student will learn about the common law system, practised in Ireland and the UK (and in some form, in most of the English-speaking world) and the civil law system which is used throughout Europe.

- **5. Law with History**

- University College Dublin
- **566** points
- **4 Years**

- **Overview:** There's a natural affinity between the disciplines of law and history. Each is shaped by the other. Important historical events are often interlinked with contemporary legal structures. Legal reform may be prompted by the defining events of the past. This course allows you to acquire a highly respected degree in law, whilst also pursuing a passion for history and acquiring a deeper understanding of past events that have shaped our current legal system.

- **6. Law with Irish**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** The BCL (Law with Irish) course allows undergraduate law students to access a cohesive set of Irish language modules which are relevant to the study and practice of law. This programme offers you the opportunity to acquire a highly respected BCL degree, whilst additionally deepening your competence in the Irish language in the context of law. Your Irish language communication skills will be developed by the resources provided by a modern multi-media language laboratory (An Teanglann) and the advanced language skills training in Lárionad de Bhaldraithe.

- **7. Law with Philosophy**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** Legal systems express and reflect the prevailing moral, political, social and economic philosophy of the State. Law and philosophy are, therefore, complementary fields of study. An understanding of law is fundamentally enhanced by a deeper knowledge of philosophical theory. This course offers you a highly respected degree in law, combined with an enriched appreciation of its philosophical underpinnings.

- **8. Law with Politics**

- University College Dublin
- **566** points
- **4 Years**
- **Overview:** Law and politics are inextricably linked by the legislative process. This course allows you to obtain a highly respected law degree, whilst also acquiring a deeper understanding of political theory and the political process. Many UCD law graduates have progressed to political careers. Others have become high-profile political commentators.

- **9. Law with Social Justice**

- University College Dublin

- **566** points
- **4 Years**
- **Overview:** The BCL with Social Justice course, the first of its kind in Ireland, combines the study of Law with rigorous analysis of social injustice, its causes and remedies. It will appeal to students who are interested in issues of equality, diversity and disadvantage, and who want to look in-depth at the social context in which law operates. On completion, you'll be uniquely equipped to offer a critical perspective on issues such as the adequacy of our criminal justice system, the legal treatment of women and minority groups, and the underlying causes of social and economic injustice.

- **10. Theoretical Physics**

- Trinity College Dublin
- **566** points
- **4 Years**
- **Overview:** Theoretical Physics explores the natural world at its most fundamental level, using mathematical theories guided by experimental investigation. For some it is the foundation for an academic career in mathematics or physics. For others it provides the basis for many career options in industry, medicine, law, finance and computing. Trinity provides a course which ranges widely across physics and mathematics. Its graduates are in demand for their technical skills and versatility.

- **11. Business, Economics and Social Studies (BESS)**

- Trinity College Dublin
- **565** points
- **4 Years**
- **Overview:** BESS is a uniquely flexible degree programme offering you different degree options across the disciplines of Business, Economics, Political Science and Sociology. It provides students with a broad education and you specialise and graduate with a Single Honours or Joint Honours degree with another subject, or a Major with a Minor. It also offers a high level of flexibility in two very important ways: from the second year onwards students are allowed to (a) choose the specific degree they wish to take and, (b) choose individual modules within their chosen degree path.

- **12. European Studies**

- Trinity College Dublin
- **564** points
- **4 Years**
- **Overview:** European Studies is a broad-ranging and integrated programme that offers students the chance to learn European languages, and also to study history and social sciences. This programme encourages students to think about our continent in all its complexity, and to analyse Europe's cultures, history, and politics.

- **13. Business Studies and Spanish**

- Trinity College Dublin
- **556** points
- **4 Years**
- **Overview:** This programme offers an exciting way of learning about business concepts, theories and models, in a variety of subject areas, as well as getting to grips in an in-depth and comprehensive manner with another country's language, its society, culture and business environment, the third year of which is spent studying abroad. This programme aims to provide you with the knowledge and skills necessary to communicate internationally and to understand the social, political and cultural contexts of markets, organisations and management across countries.

- **14. Architecture**

- University College Dublin
- **555** points
- **3 - 5 Years**
- **Overview:** UCD Architecture is at the forefront of architectural and urban design, both in Ireland and internationally. Our degree attracts a diverse cross section of talents and approaches - from the technically minded to the artistically gifted; from the socially conscious to the natural communicators and leaders. All have the capacity to become successful and productive graduates in architecture. There are two main elements to the Architecture course - project work (architectural design, drawing and model making) and the lecture programmes (historical and theoretical material). Project work is taught in the architecture design studios through a combination of lectures, individual tuition, field trips, group tutorials, large reviews and exhibitions

- **15. Business Studies and French**

- Trinity College Dublin
- **555** points
- **4 Years**
- **Overview:** This four year programme offers an exciting way of learning about business concepts, theories and models, in a variety of subject areas, as well as getting to grips in an in-depth and comprehensive manner with another country's language, its society, culture and business environment.

- **16. Common Entry into Actuarial and Financial Mathematics**

- Dublin City University
- **555** points
- **4 Years**

- **Overview:** If you'd like to qualify for in-demand quantitative roles in the insurance and financial industry, the Common Entry into Actuarial and Financial Mathematics programme (CAFM) might be for you. It's especially ideal if you'd like the flexibility to explore different areas of maths before choosing how you'll specialise. You'll learn the fundamental mathematical principles that underpin the state-of-the-art actuarial and financial models you'll study in later years, along with computer programming, data analysis, economics and accounting.

- **17. Global Business (Spain)**

- Dublin City University
- **555** points
- **4 Years**
- **Overview:** The BA in Global Business (Spain) not only gives you a head start in international business, it also offers you a wonderful intercultural experience, during which you'll study and work in Spain. In addition, you'll qualify with two degrees by the end of this four-year programme, and you'll have the chance to gain fluency in Spanish.

- **18. Athletic Therapy and Training**

- Dublin City University
- **554** points
- **4-5 Years**
- **Overview:** The Athletic Therapy and Training programme will equip you with skills in preventing, assessing, treating and rehabilitating injuries associated with physical activity, including those experienced by elite athletes. Incorporating multiple work placements, this course gives you extensive theoretical knowledge of how the body works and then shows you how to apply that expertise. It is an intensive, highly practical programme that immerses students in musculoskeletal medicine from an early stage. Practical experience at home and abroad: You'll learn how to assess, treat and rehabilitate in theory and, from second year, in real-world settings. You'll complete placements in sports medicine clinics and rehabilitation clinics, as well as undertaking pitchside and team placements. In your final year, you'll do a semester-long immersive placement, which could be in an athletic therapy clinic or a professional sports team. These placements may be completed in Ireland but most students go to the US, Canada, Australia or Britain. This course is accredited by Athletic Rehabilitation Therapy Ireland. When you graduate, you'll be eligible to become a certified Athletics Therapist. As an independent, highly skilled clinician with a wealth of experience, you'll be highly sought after in sports medicine, by musculoskeletal clinics or with a sports team, or you can go on to work as a researcher in musculoskeletal medicine.

- **19. Biological and Biomedical Sciences**

- Trinity College Dublin
- **554** points

- **4 Years**
- **Overview:** Biology is the study of living things; we explore how life first arose: the properties that distinguish living organisms from inert matter; how the vast diversity of life forms was generated; how organisms reproduce themselves; how they interact both with each other and with the environment. Biology is fundamental to understanding the world we live in and plays a huge role in medicine.
