- **Overview:** Students will study a wide range of courses to help them become knowledgeable, dedicated early childhood practitioners. These include child psychology, play, language and literacy, enquiry-based learning, child care and protection, arts and the early years. You will learn about educators who have influenced the education of young children, including Montessori, and Vygotsky. You will learn about the Aistear and will take education placements in a variety of early childhood settings.

- **12. Education and Training**

- Dublin City University
- **346** points
- **3 - 4 Years**
- **Overview:** There's a strong demand for educators and trainers across Ireland, from individual communities through to large organisations. On this course, you will gain the skills and knowledge you need to enter a career area that can change lives, and one that has excellent employment opportunities. Education Theory You will explore how teachers and trainers engage their learners and develop their understanding in any given topic. You will look at how people learn, how to use a variety of teaching methods to appeal to different learning styles and how to tailor your planning to get the very best from each learner. Teaching Skills and Placement As you develop your skills, you will be given practical advice on how to improve as a teacher trainer. You will also learn how to plan and construct lessons and then you will get the chance to practise your teaching in a safe environment before getting work experience in real life environments.

- **13. Food Science**

- TU Dublin - Grangegorman
- **346** points
- **4 Years**
- **Overview:** Food Science is a multi-disciplinary field that uses knowledge of chemistry, biology, nutrition, microbiology and engineering. Food scientists are interested in the design and development of healthy, safe, nutritious and sustainable foods. The Food Science programme here in TU Dublin will develop your scientific knowledge while also developing strong practical skills sought by employers. Practical work in our dedicated labs

for food analysis, new product development, food chemistry, food microbiology and sensory science allows students to develop excellent laboratory skills.

- **14. Engineering (General Entry)**

- TU Dublin - Blanchardstown
- **340** points
- **4 Years**
- **Overview:** If you're not sure which area of engineering to go for, this course is probably the right one for you. It's designed to enable students to sample core engineering modules in first year and help them decide which area of engineering they most enjoy. They can then choose the area they want to pursue in subsequent years. In your first year, you'll study subjects such as Algebra and Geometry, Digital Electronics, Engineering Science, Fundamentals of Calculus, Electrical Science, Introduction to Electronic Communications and Professional Development for Engineers, and gain experience in Workshop Practice.

- **15. Human Resource Management**

- TU Dublin - Aungier Street
- **340** points
- **4 Years**
- **Overview:** Human Resource management is about helping an organization to meet their goals, by attracting and maintaining employees, and managing them effectively. You will be provided with the wide-ranging knowledge and skills necessary to function as an effective Human Resource Management professional, in a national and international context.

- **16. Physics Technology**

- TU Dublin - Grangegorman
- **340** points
- **4 Years**
- **Overview:** Physicists design experiments to test or apply new ideas to better understand the physical world. Their work has led to key developments in areas such as optics, electronics, communications systems, information technology, computing, medical technologies, energy production and management, sustainable technologies and environmental technologies. This course is designed to educate and train students to be professional scientists in the area of Physics Technology, and to provide them with scientific and analytical skills in physics as well as a practical problem-solving ability.

- **17. French/Modern Language**

- Trinity College Dublin
- **339** points
- **4 Years**

- **Overview:** Within the Modern Languages programme you study two modern European languages to degree level. You can choose between French, German, Irish, Italian, Russian and Spanish. Apart from French and Irish all languages can be studied from both advanced and beginners level. French studies develop transferable skills (excellent writing and oral communication abilities, critical thinking, extensive analytical skills) that are highly sought after across a range of sectors (the creative industries, public service, tourism, publishing, interpreting, teaching, journalism, broadcasting, the Diplomatic Service, etc.). The study of French language, literature, history, politics and philosophy is a hugely enriching intellectual experience and it also leaves graduates very well placed to succeed in a wide range of professional contexts.

- **18. German/Modern Language**

- Trinity College Dublin
- **339** points
- **4 Years**
- **Overview:** Within the Modern Languages programme you study two modern European languages to degree level. It is the most intensive exposure to languages and cultures that Trinity College has to offer. You can choose between French, German, Irish, Italian, Russian and Spanish. Apart from French and Irish all languages can be studied from both advanced and beginners level. They will enable you to acquire a high level of language competence and fluency, combined with an in-depth understanding of the main cultures and societies in which these languages are spoken.

- **19. Irish/Modern Language**

- Trinity College Dublin
- **339** points
- **4 Years**
- **Overview:** Within the Modern Languages programme you study two modern European languages to degree level. You can choose between French, German, Irish, Italian, Russian and Spanish. Apart from French and Irish all languages can be studied from both advanced and beginners level. Our programmes will give you the opportunity for full immersion into the languages and cultures that you study. They will enable you to acquire a high level of language competence and fluency, combined with an in-depth understanding of the main cultures and societies in which these languages are spoken. Tugtar 'Nua-Ghaeilge' ar an teanga ón mbliain 1200 go dtí an lá atá inniu ann. Sa chúrsa seo léitear litríocht ó gach cuid den tréimhse agus déantar staidéar ar fhorás na teanga lena linn. Déantar staidéar speisialta freisin ar Ghaeilge an lae inniu agus ar Ghaeilge na hAlban.
