- **9. Social Policy/Economics**

- Trinity College Dublin
- **509 points**
- **4 Years**
- **Overview:** Social Policy This subject is relevant to students intending to pursue a career in research, social policy analysis and evaluation, management and planning within the social services, both voluntary and statutory, as well as to those with a general interest in society and social policy. Economics Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Economists' main motivation is to find mechanisms that encourage efficiency in the production and use of material goods and resources, while at the same time producing a pattern of income distribution that society finds acceptable.

- **10. Social Policy/Political Science**

- Trinity College Dublin
- **509 points**
- **4 Years**
- **Overview:** Social Policy Curious about social and economic policy issues around the world? Searching for a course that demands both academic and vocational qualities? Interested in understanding society, its social problems and have a desire to make a difference? Then Social Policy may be the subject choice for you. It is particularly relevant to students intending to pursue a career in research, social policy analysis and evaluation, management and planning within the social services, both voluntary and statutory, as well as to those with a general interest in society and social policy. Political Science Political Science will appeal to students who are excited about exploring the background to current events, the nature and use of power and how decisions are made that impact on wider society. If you are interested in having an in-depth knowledge of public affairs, developing critical and much sought after research skills and if your career interests lie in journalism, public service, teaching, public policy, international organisation and/or business then Political Science may be for you.

- **11. Aviation Management / Aviation Management with Pilot Studies**

- Dublin City University
- **500 points**
- **4 Years**
- **Overview:** This exciting course gives you the opportunity to be part of the global aviation sector. If you're interested in being an air traffic controller, or a pilot, or if you want to be a leader in other areas of aviation management, this programme is for you. In addition to a general management education, the course provides you with specialist knowledge in all areas of aviation and qualifies you for careers in demanding positions in this growing industry sector.

- **12. Data Science**

- Dublin City University
- **500 points**
- **4 Years**
- **Overview:** Fancy a career as a professional problem solver, investigator and storyteller? That's exactly what a data scientist is. From retail and sports science to journalism and fintech, data scientists are increasingly at the heart of business and government. Whether it's enabling product recommendations or helping a sports team decide what player to buy next, data science can unlock the secrets of any sector. If you like maths, creative problem solving and collaborative work, data science could really appeal to you. This course sits at the intersection of computer science, maths and business, enabling you to understand what is possible with cutting-edge technology such as machine learning and artificial intelligence.

- **13. Clinical Measurement Science**

- TU Dublin - Grangegorman
- **499 points**
- **4 Years**
- **Overview:** In this course (which is unique in the country), you'll learn how to measure and image the physiological activity of the human body and provide diagnostic information to medical staff. As well as learning through traditional lectures, you'll gain extensive practical experience, including placement in a hospital. It's not necessary to have studied physics before entry.

- **14. Physical Education with Mathematics**

- Dublin City University
- **499 points**
- **4 Years**
- **Overview:** Do you really enjoy both physical activity and mathematics? This course is a brilliant opportunity to combine your passions and go on to make a positive impact on society through education. Once you graduate from this course, you can teach these subjects up to Leaving Cert level or choose from a wide range of other exciting career paths. This course offers a unique blend of academic subjects, taught in a way that emphasises learning through practical experiences. During the course, you'll gain a comprehensive understanding of the content, theory, and skills of different

physical activities (such as athletics, games, aquatics, dance, and outdoor activities), maths and education. You'll also improve your communication, leadership, and critical thinking skills.

- **15. Biotechnology**

- Dublin City University
- **498** points
- **4 Years**
- **Overview:** You'll gain an excellent foundation in genetics, cell biology, immunology, microbiology, bioinformatics and bioprocess engineering, as well as practical laboratory skills and invaluable skills in communications, critical thinking and problem solving. In your final year, you'll decide to take focus either on research or on learning more about the biopharmaceutical industry.

- **16. Business Studies International**

- Dublin City University
- **498** points
- **4 Years**
- **Overview:** If your ambition is to have a career in business that gives you international opportunities, then this course could be for you. The Business Studies degree course gives you an introduction to the foundations of business and allows you to specialise in areas such as economics, management, finance, marketing, HR or business analytics. International OpportunitiesThe course not only allows you to develop the skills and knowledge needed for a career in business, it also offers you an exciting intercultural experience and the chance to master another language. The four-year course gives you the chance to spend a year at one of DCU's partner universities in Austria, Belgium, China, France, Germany, Japan, Mexico or Spain.

- **17. Linguistics/Classical Languages**

- Trinity College Dublin
- **498** points
- **4 Years**
- **Overview:** Linguistics Students of Linguistics engage in evidence-based analysis of language, acquiring skills and techniques that allow investigation of different aspects of language structure such as sound, words and grammar. This involves key transferable skills in problem solving and critical thinking. Classical Languages The study of Classical Languages is concerned with the language, literature and thought of either Ancient Greece or Ancient Rome. You will choose to study either Greek or Latin. Through the reading of literature in the original language and the examination of key aspects of ancient history, you will develop a thorough knowledge of the classical world and a critical approach to textual and material culture.

- **18. Linguistics/Computer Science**

- Trinity College Dublin
- **498** points
- **4 Years**
- **Overview:** The combined study of Computer Science and Linguistics yields opportunities for graduates to specialise in computational speech and language processing or text analysis. Linguistics often appeals to students who are curious about language as one of the most fascinating aspects of human knowledge and behaviour. Linguistics is also appealing to those who enjoy detailed, problem-solving analysis and careful argumentation. Students of Linguistics engage in evidence-based analysis of language, acquiring skills and techniques that allow investigation of different aspects of language structure such as sound, words and grammar. This involves key transferable skills in problem solving and critical thinking.

- **19. Linguistics/Modern Language**

- Trinity College Dublin
- **498** points
- **4 Years**
- **Overview:** Linguistics Students of Linguistics engage in evidence-based analysis of language, acquiring skills and techniques that allow investigation of different aspects of language structure such as sound, words and grammar. This involves key transferable skills in problem solving and critical thinking. Modern Language Within the Modern Languages programme you study two modern European languages. It is the most intensive exposure to languages and cultures that Trinity College has to offer. You can choose between French, German, Irish, Italian, Russian and Spanish. Apart from French and Irish all languages can be studied from both advanced and beginners level
