

RECOMMENDATION SET 1

- **0. Medicine**

- University College Cork
- **730** points
- **5 Years**
- **Overview:** The Medicine curriculum at UCC is rooted in the basic Medical Sciences of Anatomy, Physiology, and Biochemistry, but also places emphasis on clinical instruction. A distinctive feature is small-group, patient-centred teaching, in which students learn the skills of listening and communicating, history-taking and clinical examination.

- **1. Dentistry**

- University College Cork
- **613** points
- **5 Years**
- **Overview:** Dentistry provides a rewarding career in the provision of oral health care and is satisfying not only in terms of performing high-standard clinical procedures but also in terms of social interaction. The dentist also fulfills an important function in educating patients regarding their oral care.

- **2. Veterinary Medicine**

- University College Dublin
- **589** points
- **5 Years**
- **Overview:** This course will educate you to the best international standards in veterinary medicine and is accredited nationally by the Veterinary Council of Ireland (VCI), by the European Association of Establishments for Veterinary Education (EAEVE) and is one of only 6 veterinary schools in Europe currently accredited by the American Veterinary Medical Association (AVMA). The veterinary profession is concerned with the promotion of the health and welfare of animals of special importance to society. This involves the care of healthy and sick animals, the prevention, recognition, control and treatment of their diseases and of diseases transmitted from animals to man, and the welfare and productivity of livestock.

- **3. Occupational Therapy**

- University College Cork
- **566** points
- **4 Years**
- **Overview:** Students on this broad and varied Occupational Therapy course study psychology, anatomy and physiology, as well as occupational therapy theories, assessment and treatment approaches and evidence-based practice.

- **4. Children's and General Nursing (Integrated)**

- University College Cork
- **522** points
- **4 Years**
- **Overview:** The Children's and General Nursing course will provide you with opportunities to develop knowledge and skills relevant to children's and general nursing practice, including independent and critical thinking and problem-solving. It will enable you to ensure that the nursing care you deliver is up-to-date and based on the best current evidence.

- **5. Psychology**

- Trinity College Dublin
- **577** points
- **4 Years**
- **Overview:** The School of Psychology aims to offer a knowledge base and a set of skills that not only equip students for the many careers that exist in psychology, but also prepare students intellectually for other careers. Psychology is a branch of science that demands clear, rigorous thinking, numeracy and the ability to define, study and solve problems in complex, changing settings.

- **6. Applied Psychology**

- University College Cork
- **533** points
- **3 Years**
- **Overview:** As a student on the BA Applied Psychology, you get a chance to engage with a wide breadth of topics. The degree follows a rich, varied and challenging curriculum, from history to neuroscience, culture to biology, from children to the elderly, from professional skills to statistical and laboratory skills.

- **7. Social Sciences (Two Subject Combination)**

- University College Dublin
- **490** points
- **3 Years**
- **Overview:** Social Sciences students explore society and how people behave as individuals and in groups. With the four-year Social Sciences degree, you choose DN700 at CAO and then select your preferred option below. Your subject choices are guaranteed. The Two Subjects Choice (TSC) options are: Archaeology; Economics; Geography; Information & Communication Studies, Philosophy; Politics and Sociology. There are options to change subject choices at the end of first year if you wish. You will gain a deep understanding of each subject you choose to study and develop real-world skills in research, communication and leadership. You may additionally apply for an internship, or study abroad for a year or a semester. You will learn to analyse, criticise and challenge beliefs and assumptions - including your own.

- **8. Sociology (Social Sciences Two Subject Combination)**

- University College Dublin
- **490** points
- **4 Years**
- **Overview:** If you are interested in people, you will be interested in sociology. It is relevant for understanding almost every aspect of our lives. We are all part of society, we are connected with each other and we are affected by the people around us. In the same way, we shape the social context for others as well. Sociology provides you with the mindset and the research tools to observe the social world, make connections, understand differences, norms, cultures or inequalities.

- **9. Applied Economics (through Transformational Learning)**

- University College Cork
 - **498** points
 - **4 Years**
 - **Overview:** Economics is the study of people in the ordinary business of life. It is about the choices and decisions that we make and the consequence of these decisions. The BSc Applied Economics is a degree in Economics with a difference. It is a 4 year degree combining the study and application of Economics with personal, professional development and the opportunity to go on work placement or study abroad.
- **10. Physical Education, Sports Studies and Arts**
 - University College Cork
 - **521** points
 - **4 Years**
 - **Overview:** Our Physical Education, Sports Studies and Arts degree is a dynamic course that aims to produce creative educators in physical education, sport and physical activity settings. As well as qualifying to teach physical education, students will also graduate in a chosen specialist arts subject from one of the following: English, Gaelic/Irish, Mathematics, French, or History.
- **11. Music Education**
 - Trinity College Dublin
 - **656** points
 - **4 Years**
 - **Overview:** If you love sharing music, already have a competent standard of music performance, and wish to combine these qualities with a teaching career, then this course is ideally suited to you. Whether your interests are primarily academic or practical, your experience of this vast and rich discipline will be greatly advanced. As an academic study, music fosters independence of thought, creativity and critical and analytical skills. This course offers opportunities to perform music, to share music with others via teaching and performing, and to conduct a number of different ensembles.
- **12. Arts (Mathematics and Education)**

We teach courses which have both systematic and historical emphases and in the higher years students can choose options and get to write a thesis on a topic of their own choice.
- **17. Sport, Health and Exercise Science**
 - University College Dublin
 - **532** points
 - **3 Years**
 - **Overview:** This course is suitable for you if you have a strong interest in sport and exercise science and wish to pursue a career in high performance sport, a clinical profession (e.g. physiotherapy, dietetics, medicine) and/or scientific research in sport and health sciences. You will study the scientific principles underlying the promotion and enhancement of sport, physical health and exercise across the lifespan.
- **18. Physiotherapy**

- University College Dublin
- **578 points**
- **4 Years**
- **Overview:** Physiotherapists are healthcare professionals responsible for developing, maintaining and restoring movement and functional ability in adults and children using evidence-based practice. Studying Physiotherapy in UCD will provide you with the skills and qualifications required to practice as a physiotherapist upon graduation. With state-of-the-art facilities and globally recognised researchers as lecturers, you will learn in a culture of established academic excellence.

- **19. Sport and Exercise Management**

- University College Dublin
- **478 points**
- **3 Years**
- **Overview:** The multidisciplinary nature of the BSc in Sport & Exercise Management equips students with skills in areas such as management, marketing, event planning, human resources, economics and finance, sports development and coaching. These underpin the structure and governance of sport, health and exercise programmes today. You will study several management subjects and techniques over the course of three years, designed to provide you with the skills to work within a wide range of sports management areas. You will learn basic principles in first year which will be refined and developed in second and third year.

RECOMMENDATION SET 2

- **0. Actuarial & Financial Studies**

- University College Dublin
- **613 points**
- **4 Years**
- **Overview:** Studying UCD Actuarial & Financial Studies (BAFS) degree requires a multidisciplinary education in fields such as mathematics, economics, finance, statistics, risk management and professionalism. It takes a combination of strong analytical skills, business knowledge and understanding of human behaviour to design and manage programmes that control risk and guarantee sufficient funds for the insurance and pension sectors. Actuaries have traditionally worked mostly in the insurance and pensions industries but are increasingly moving into wider fields, where they can employ their range of skills. The course also opens up options to work in finance, investment and trading.

- **1. Dentistry**

- University College Cork
- **613 points**
- **5 Years**
- **Overview:** Dentistry provides a rewarding career in the provision of oral health care and is satisfying not only in terms of performing high-standard clinical procedures but also in terms of social interaction. The dentist also fulfills an important function in educating patients regarding their oral care.

- **2. Engineering with Management**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Engineering with Management is concerned with the analysis, design, improvement, installation, and management of integrated systems of people, finance, materials and equipment. Our graduates have the technical skills common to all excellent engineers, with this knowledge augmented by an understanding of the commercial and industrial environment and the ability to generate innovative solutions to the problems of the world.

- **3. Law/Business Studies**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** LawThe law degree will appeal to you if you are interested in society and how it works, how we regulate the relationships between people. Given the wide range of legal modules, the degree attracts students with a broad range of interests.Business StudiesThis four year programme offers the opportunity to focus upon the many areas of overlapping interest between the two disciplines, for example, the structure of companies and other forms of business organisation, competition law and regulation of markets, consumer law, labour law, finance and financial markets, taxation, the protection of intellectual property and international perspectives on law and business.

- **4. Law/History**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Law The law degree will appeal to you if you are interested in society and how it works, how we regulate the relationships between people. Given the wide range of legal modules, the degree attracts students with a broad range of interests. Those interested in politics are attracted to subjects such as constitutional law. History The History programme introduces students to the diversity of historical studies, which include modules covering medieval and modern periods, including Irish, European, and American history, as well as some modules exploring the skills and methods which historians use, and the kinds of debates in which historians engage.

- **5. Mathematics/Modern Language**

- **613 points**
- **4 Years**
- **Overview:** MathematicsMathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques.You can choose between German, Irish, Italian, Russian and Spanish. Apart from French and Irish all languages can be studied from both advanced and beginners level.

- **6. Mathematics/Music**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Mathematics Mathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with

the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques. Music Studying music will allow you to engage with a range of traditions to acquire a profound understanding of how music works in theory and in creative practice. If you are interested in understanding music's place in society, developing music technology skills, writing music, or improving your skills as an informed performer, this course could be for you.

- **7. Mathematics/Philosophy**

- Trinity College Dublin
- **613 points**
- **4 Years**
- **Overview:** Mathematics Mathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques. Philosophy This course offers the opportunity to engage in depth with questions of metaphysics (about the fundamental nature of reality), epistemology (the theory of knowledge), ethics (theories of right and wrong), political philosophy (the nature of the just state), philosophy of religion (reasoning about God), philosophy of mind (questions about thought, language and reason) and various other areas.

- **8. Global Business**

- Trinity College Dublin
- **602 points**
- **4 years**
- **Overview:** The Global Business degree is a unique programme, designed for students who wish to focus on business from the very beginning of their degree. The degree is both innovative and practical with a strong focus on experiential learning. Trinity Business School places an emphasis on blended learning, where academic excellence meets industry experience with a keen focus on how business operates within the global economy.

- **9. Pharmacy**

- University College Cork
- **602 points**
- **5 Years**
- **Overview:** A pharmacist is a healthcare team member specifically concerned with drugs and medicines. Pharmacy at UCC provides the confidence, skills, and knowledge to make a difference in the pharmaceutical arena.

- **10. Biomedical, Health and Life Sciences**

- University College Dublin
- **589 points**
- **4 Years**
- **Overview:** This course will appeal to those with a keen interest in science and in how research and technology can impact on human health. It is training scientists at the interface of science and medicine. You will learn how scientifically driven investigations can advance our knowledge of disease prevention, detection and treatment and translating these into clinical utility. The course will immerse you in modern medical and biological sciences and focus on the application of scientific developments. BHLS offers students a unique opportunity to complete a research project with a Principal Investigator in a biomedical research area that interests them and an opportunity to be involved in peer-reviewed publications.

- **11. Law and French**

- Trinity College Dublin
- **589 points**
- **4 Years**
- **Overview:** The Law and French degree programme offers a unique opportunity to study core and specialised legal modules but also the language, culture and political systems of France. Students must undertake an Erasmus year in France, exposing them to the law of that legal system.

- **12. Philosophy, Political Science, Economics and Sociology**

- Trinity College Dublin
- **581 points**
- **4 Years**
- **Overview:** Philosophy, Political Science, Economics and Sociology (PPES), offers a coherent and integrated introduction to the study of social sciences and philosophy. It brings together some of the most important approaches to understanding society and, in doing so, develops skills for a range of future careers and activities.

- **13. Economics/Geography**

- Trinity College Dublin
- **578 points**
- **4 Years**
- **Overview:** EconomicsAny society has to address the problem of how and what to produce for its material survival, and how the goods and services that are produced should be distributed among its population. Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. GeographyGeography is the study of Earth's landscapes, peoples, places and environments. Fundamentally it is about the world in which we live. Geography offers a 21st century education by uniquely bridging the social sciences (human geography) with the natural sciences (physical geography). Geography also covers increasingly important environmental issues where humans affect physical environments and vice versa.

- **14. Economics/History**

- Trinity College Dublin
- **578 points**
- **4 Years**
- **Overview:** EconomicsAny society has to address the problem of how and what to produce for its material survival, and how the goods and services that are produced should be distributed among its population. Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. HistoryThe four-year programme allows students to lay firm foundations in the first two years, with wide-ranging modules on medieval and modern history, Irish, European, American, environmental and global history, as well as on historical methods and approaches. The final two years of the programme allow students the chance to study several specialist modules in-depth and to undertake independent research on a subject of their own choice.

- **15. Economics/Mathematics**

- Trinity College Dublin
- **578 points**

- **4 Years**
- **Overview:** Economics Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Economists' main motivation is to find mechanisms that encourage efficiency in the production and use of material goods and resources, while at the same time producing a pattern of income distribution that society finds acceptable. Mathematics Mathematics is a broad and diverse subject which is used to model, analyse and understand several applications in the physical and biological sciences, engineering, management science, economics and finance. Its numerous applications are naturally interwoven with the underlying theory which is essential in developing one's logical reasoning, quantitative skills and problem-solving techniques.

- **16. Economics/Modern Language**

- Trinity College Dublin
- **578 points**
- **4 Years**
- **Overview:** Economics Economists explore how people and institutions behave and function when producing, exchanging and using goods and services. Economists' main motivation is to find mechanisms that encourage efficiency in the production and use of material goods and resources, while at the same time producing a pattern of income distribution that society finds acceptable. Students combine this subject with their choice of German or Spanish.

- **17. Economics/Philosophy**

- Trinity College Dublin
